

NETWORK CARE UNIT - NCU

A NEW ERA OF NETWORK MANAGEMENT, SERVICE, SUPPORT & SECURITY.

Industrial-grade hardware. Local intelligence. Human-backed care around the clock.

INDUSTRIAL-GRADE NETWORK COMPUTING APPLIANCE

**RUGGED
ALUMINUM
CHASSIS**

A durable enclosure built for business environments.

**SOLID-STATE
DESIGN**

Fewer moving parts means fewer common hardware failure points.

**QUIET PASSIVE
COOLING**

Heat-dissipating design with no cooling fan to wear out.

**SIX-PORT
CONNECTIVITY**

Purpose-built interfaces for secure business network traffic.

PROTECTED FROM BOTH SIDES

Outside-in protection. Inside-out monitoring. Human oversight around the clock.

VECTORLOGIC FIREWALL
OUTSIDE-IN DEFENSE

Protects traffic entering and leaving the business network.

SECURITY SENTINEL
INSIDE-OUT MONITORING

Watches activity from inside the network. Authorized automation can contain threats in seconds - faster than human-only response.

AIDEN HELPER
OPERATIONAL HEALTH

Monitors system health and operational metrics to help keep local services running smoothly.

SMART SERVICES NOC
24/7 HUMAN OVERSIGHT

Monitored around the clock, with managed updates, human review, and escalation when the situation calls for it.

ONE APPLIANCE • LOCAL INTELLIGENCE • 24/7 HUMAN-BACKED CARE
